Introduction

Social networking, call it what you will, love it or hate it, is here.

This is even true of utilising your corporate BlackBerry handheld device, providing the administrators have not restricted the installation of 3rd party applications to the handheld.

The Facebook application for the BlackBerry handheld is an extremely power, and featured client.

This guide will show you how to install the Facebook application onto your BlackBerry handheld device.

Installing Facebook v1.2.0

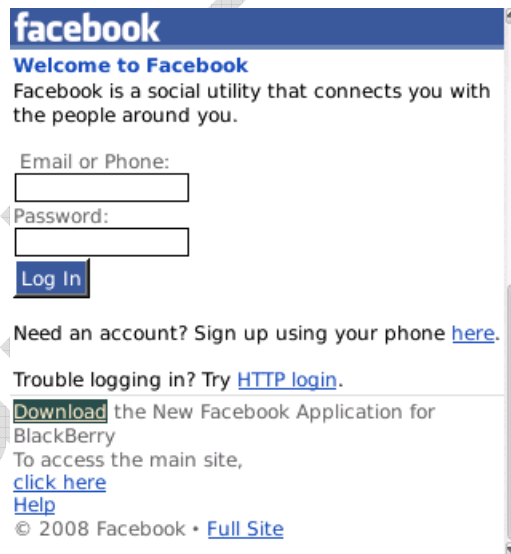

The initial portion of this installation requires that you utilise the BlackBerry Browser.

Installation Procedure

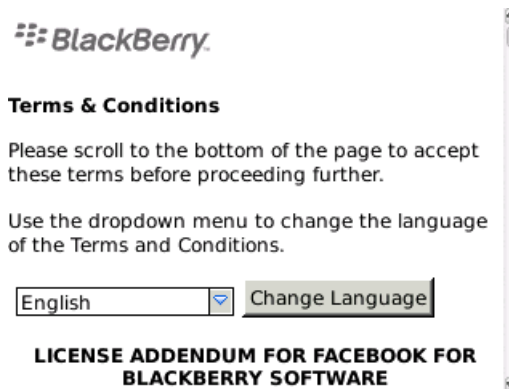

1. Open the BlackBerry Browser on your handheld device.

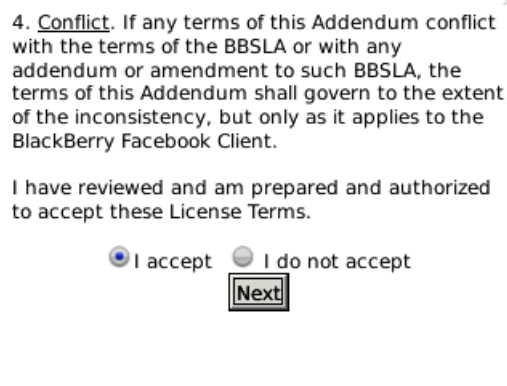

2. Navigate to <http://m.facebook.com/?w2m>
3. Scroll down the screen until you locate the **Download** the New Facebook Application for BlackBerry link.

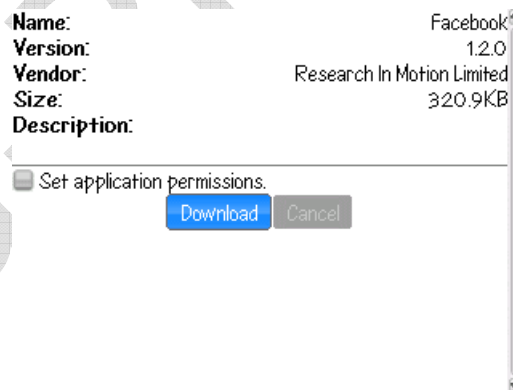

4. The **Terms & Conditions** screen appears, select the **Language** that you require.

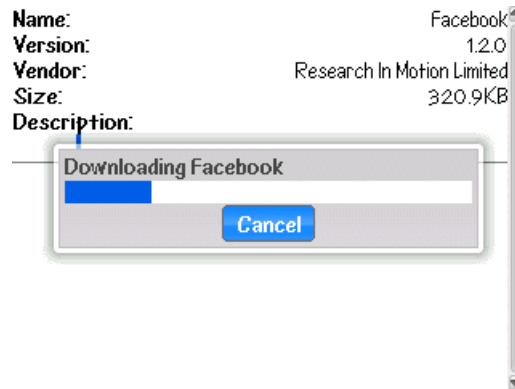

5. Scroll down, until you see the **I accept / I do not accept** options.

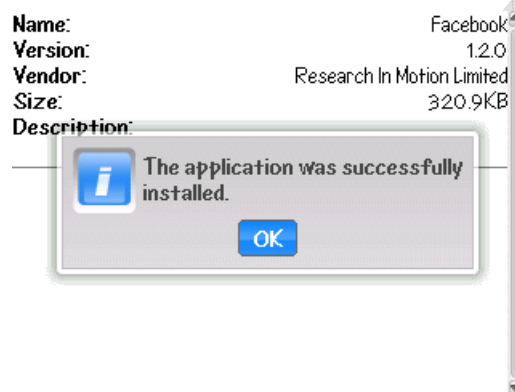

6. Click on **I accept**, and the click on **Next**.

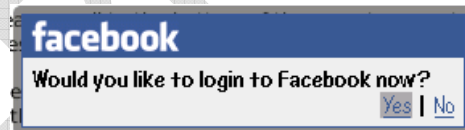

7. Click on the **Download** button.

8. Once the installation is completed, the message stating that **The application was successfully installed** appears.

9. Click on **OK**.

10. If you want to Launch Facebook now, click on **Yes**, otherwise you may launch the application at a later stage.
